

Finally, a school that revolves around the student.

GALILEO
PREPARATORY ACADEMY

Not all students learn the same way or on the same schedule. So we created an entirely new kind of curriculum based on a more flexible calendar for families with a more fluid lifestyle. It's a school that focuses on four areas of development and always puts the student at the center of the universe.

**A different kind of school that believes
students simply need space to grow.**

The Galileo Approach to Learning

Inherently flexible

At GPA, each family sets its own school calendar. School is open year-round, and families can determine when and where learning happens.

Personalized and rigorous

Students benefit from personalized curriculum that allows them to learn in a way that is most appropriate for them.

Powered by technology

Learning powered by cutting-edge technology leads to a better educational experience and success in college and the workforce.

Rooted in experience

GPA was founded by education leaders who believe that there is a better way to learn and now are using their decades of experience to make that a reality.

A purpose-driven curriculum

Core

Traditional studies in English, mathematics, history, and the sciences.

Focus

In-depth study in graphic arts and design, IT, gaming, and business leadership.

Dialogues

Growing skills in problem-solving, communication, and self-expression through exploration and the arts.

Community

Developing interests and skills that improve the common good.
