

INDIVIDUALIZED

COLLEGE COUNSELING

Our college counseling curriculum is shaped by four guiding principles: cultivating a highly individualized process, empowering students to confidently lead, serving a wide-range of aspirations, and creating a culture that celebrates everyone's successes and God-given talents. Beginning in the 8th grade and continuing through graduation, we strive to provide parents with the necessary resources to support their student, and to create an environment where students will be inspired to take charge of their futures - all to the glory of God.

100%
COLLEGE ACCEPTANCE

>\$10 Million
SCHOLARSHIPS AWARDED

100% of the Class of 2023 were admitted to a four-year college. BA graduates enrolled in **53** different colleges in **23** states across the country. Five graduates pursued a gap year experience.

IRON EAGLES

ROBOTICS

The Iron Eagles robotics program is a STEAM-focused experience with emphasis on developing the engineering design cycle from conceptualization through the research, building, programming, testing, and redesign phases. For over 10 years, Brentwood Academy has been at the forefront of introducing technological advancements to students on both the competition field and in the classroom. Our award-winning student-driven robotics program promotes creative problem solving and teamwork through the engineering of students' original designs which compete at an elite level in local, regional, state, and world VEX Robotics tournaments.

ACADEMICS

Brentwood Academy's experienced faculty purposefully nurture and challenge students to think more critically, communicate thoughtfully, problem-solve effectively, and become the people who, by God's grace, understand their purpose and impact. Our academic roots are in a traditional, college preparatory curriculum that focuses on developing the whole person - body, mind, and spirit - to the glory of God.

Students choose from an array of inviting and challenging course offerings throughout their school experience with 28 honors and 24 Advanced Placement courses, as well as Visual and Performing Arts distinctions. Our liberal arts curriculum allows students to pursue and excel in their individual areas of interest, while smaller classroom sizes and our advisory program allow them to build meaningful relationships with peers and faculty.

BA offers an extensive list of electives and extracurricular options in both the middle school and upper school. Students have many opportunities to grow and excel in the classroom and beyond, inspiring them to dig deeper into their unique, God-given talents and interests while becoming well-rounded individuals.

CHRISTIAN LIFE

In addition to the programs and classes available, Christian Life at Brentwood Academy involves the classroom, the playing field, the band room, and the hallways.

We believe that everything is spiritual, and that Jesus Christ gives everything purpose. Every faculty and staff member has a personal and growing relationship with Christ. While the religious beliefs of each student will be respected, the school will continuously teach biblical truths and values and encourage faith in Christ.

ATHLETICS

The athletic program at Brentwood Academy has seen record growth and accomplishments over the past 50 years. Middle and upper school athletics are guided by coaches who consider their role as mentors to be of greatest importance. The field of competition allows us to extend our learning and understanding of working as a team while developing relationships that help mold young men and women to be servant leaders on and off the playing field.
