

# Frustration to Focus

We all want our children to succeed in school, and it's heartbreaking when they struggle to learn. Learning Matters provides a range of services to identify learning obstacles and develop a plan to address them.

An **assessment** can diagnose your child's unique learning profile and address questions regarding intellectual, academic, social/emotional, and executive functioning ability. Common assessments include:

- > **Comprehensive Psycho-Educational Assessment**
  - Dyslexia and Specific Learning Disorders
  - ADD/ADHD and Executive Functioning Skills
- > **Speech and Language Assessment**
- > **Intellectual Giftedness and IQ Testing**

(615) 739-0547

Once your child's educational needs are determined, we will develop an individualized learning plan. Our experienced interventionists will provide academic mentorship and **one-on-one tutoring** to maximize academic growth and remediate learning differences.

- > Dyslexia/Orton-Gillingham-based Interventions
- > Study Skills and Organization, and Self-Advocacy
- > K-12 Math and Dyscalculia
- > Writing, Written Expression, and Dysgraphia
- > Speech-Language Therapy
